Current Concepts in Arthroplasty 2013

"What is Hot, What is Not"

Dear Friends,

It is my pleasant task to invite you once again to the annual mega event! This year we wish to discuss "What is Hot and What is Not"!

I will be joined by eminent national and international faculty to reach consensus about the "good things in" and the "bad things on their way out". As you are well aware, arthroplasty is now an extremely dynamic field and choice of implant, surgical approach, navigation, custom jigs, length of femoral stems and the perioperative care of the arthroplasty patients are all evolving continuously. This event will provide you with an excellent opportunity to update yourself with current hot trends. Also, like every year, quite a few exciting surgeries are planned for demonstration by the masters in the field. Interactive sessions will allow you to further address your queries and concerns and the evening reception will present you with an opportunity to closely interact with the distinguished faculty.

I invite you all to join us to be a part of this event and make it memorable.
